

5 Cardiovascular system

NIGEL H. WEST,* B. LOWELL LANGILLE† AND
DAVID R. JONES‡

*Department of Zoology, University of British Columbia, Vancouver,
B.C., Canada*

CONTENTS

I. General introduction	236
II. Heart	237
A. General structure	237
B. Heart wall	242
C. Coronary vessels	244
D. Innervation of heart	246
E. Cardiac conducting system	246
III. Arteries	251
A. Major arterial trunks	251
B. Structure of arteries	253
C. Arterial pressure flow relationships	257
IV. Veins	259
V. Receptors of the central cardiovascular area	262
VI. Blood supply of specific regions	269
A. Brain	269
B. Specialized vascular regions of the head	283
C. Lungs	287
D. Kidneys	298
E. Nasal glands	305
